ALTISOURCE OVERVIEW

This presentation contains forward-looking statements that involve a number of risks and uncertainties. These forward-looking statements include all statements that are not historical fact, including statements that relate to, among other things, future events or our future performance or financial condition. These statements may be identified by words such as "anticipate," "intend," "expect," "may," "could," "should," "would," "plan," "estimate," "seek," "believe," "potential" or "continue" or the negative of these terms and comparable terminology. Such statements are based on expectations as to the future and are not statements of historical fact. Furthermore, forward-looking statements are not guarantees of future performance and involve a number of assumptions, risks and uncertainties that could cause actual results to differ materially. Important factors that could cause actual results to differ materially from those suggested by the forward-looking statements include, but are not limited to, the risks discussed in Item 1A of Part I "Risk Factors" in our Form 10-K filing with the Securities and Exchange Commission, as the same may be updated from time to time in our Form 10-Q filings. We caution you not to place undue reliance on these forwardlooking statements which reflect our view only as of the date of this report. We are under no obligation (and expressly disclaim any obligation) to update or alter any forward-looking statements contained herein to reflect any change in our expectations with regard thereto or change in events, conditions or circumstances on which any such statement is based. The risks and uncertainties to which forward-looking statements are subject include, but are not limited to, risks related to the COVID-19

pandemic, customer concentration, the timing of the anticipated increase in default related referrals following the expiration of foreclosure and eviction moratoriums and forbearance programs, the timing of the expiration of such moratoriums and programs, and any other delays occasioned by government, investor or servicer actions, the use and success of our products and services, our ability to retain existing customers and attract new customers and the potential for expansion or changes in our customer relationships, technology disruptions, our compliance with applicable data requirements, our use of third party vendors and contractors, our ability to effectively manage potential conflicts of interest, macro-economic and industry specific conditions, our ability to effectively manage our regulatory and contractual obligations, the adequacy of our financial resources, including our sources of liquidity and ability to repay borrowings and comply with our Credit Agreement, including the financial and other covenants contained therein, as well as Altisource's ability to retain key executives or employees, behavior of customers, suppliers and/or competitors, technological developments, governmental regulations, taxes and policies. The financial projections and scenarios contained in this presentation are expressly qualified as forward-looking statements and, as with other forward-looking statements, should not be unduly relied upon. We undertake no obligation to update these statements, scenarios and projections as a result of a change in circumstances, new information or future events.

Adjusted operating (loss) income, pretax loss attributable to Altisource, adjusted pretax loss attributable to Altisource, earnings before interest, taxes, depreciation and amortization ("EBITDA"), Adjusted EBITDA, adjusted net loss attributable to Altisource, adjusted diluted loss per share, and net debt, which are presented elsewhere in this presentation, are non-GAAP measures used by management, existing shareholders, potential shareholders and other users of our financial information to measure Altisource's performance and do not purport to be alternatives to loss from operations, loss before income taxes and non-controlling interests, net loss attributable to Altisource, diluted loss per share, and long-term debt, including current portion, as measures of Altisource's performance. We believe these measures are useful to management, existing shareholders, potential shareholders and other users of our financial information in evaluating operating profitability and cash flow generation more on a basis of continuing cost and cash flows as they exclude amortization expense related to acquisitions that occurred in prior periods and non-cash share-based compensation, as well as the effect of more significant non-operational items from earnings, cash flows from operating activities and long-term debt net of cash on-hand. We believe these measures are useful in evaluating the effectiveness of our operations and underlying business trends in a manner that is consistent with management's evaluation of business performance. Furthermore, we believe the exclusion of more

significant non-operational items enables comparability to prior period performance and trend analysis.

It is management's intent to provide non-GAAP financial information to enhance the understanding of Altisource's GAAP financial information, and it should be considered by the reader in addition to, but not instead of, the financial statements prepared in accordance with GAAP. Each non-GAAP financial measure is presented along with the corresponding GAAP measure so as not to imply that more emphasis should be placed on the non-GAAP measure. The non-GAAP financial information presented may be determined or calculated differently by other companies. The non-GAAP financial information presented should not be unduly relied upon.

These non-GAAP measures are presented as supplemental information and reconciled to the appropriate GAAP measures in the Appendix.

FIRST QUARTER 2023 HIGHLIGHTS

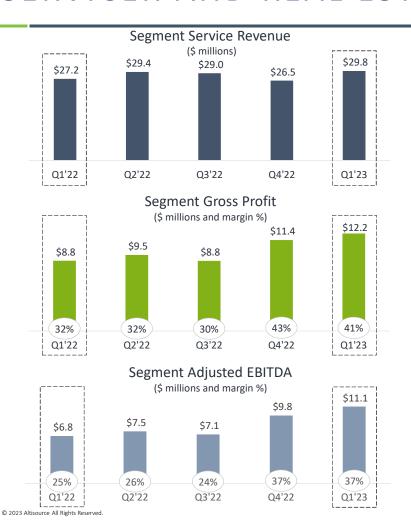

- Generated \$1.5 million in Adjusted EBITDA¹, representing a \$5.6 million improvement over the first quarter of 2022
- Improved company-wide gross profit margins to 23% compared to 15% in the first quarter of 2022
- Results primarily driven by revenue growth in pre-foreclosure solutions in the Servicer and Real Estate ("SRE")
 segment from the ongoing recovery of the default market, company-wide cost savings measures taken in 2022
 and early 2023 and \$1.3 million in other income related to an India tax refund
- Maintained a robust sales pipeline and won and onboarded significant new business in both segments
- Strengthened the balance sheet in February 2023 by extending the maturity dates of our Senior Secured Term Loans and Revolver (together, the "Credit Agreements"²) and raising equity
 - Generated \$20.5 million in net proceeds from the sale of Altisource common stock
 - Used \$20 million of proceeds of the stock sale to repay a portion of the Senior Secured Term Loans
- Ended the quarter with \$43 million in cash

¹This is a non-GAAP measure defined and reconciled in the Appendix

SERVICER AND REAL ESTATE SEGMENT

First Quarter Financial Performance

- Grew service revenue by 10% and Adjusted EBITDA by 63% compared to Q1'22
- Improved Adjusted EBITDA margins to 37% from 25% in Q1'22
- Service revenue growth reflects the ongoing recovery of the default market, which initially benefits our pre-foreclosure solutions
- Adjusted EBITDA and margin improvements reflect scale and cost reduction measures, partially offset by revenue mix with higher revenue growth in our lower margin Field Services business

SRE SALES PIPELINE AND WINS

6

¹ Sales Pipeline represents a weighted estimate of the annualized revenue on a stabilized basis from the sales pipeline at the end of the applicable quarter. The pipeline can and will change based on won and lost deals, new prospects, pipeline funnel stage changes, stabilized revenue estimate changes, weighted revenue estimate changes and additional information. Actual results could differ materially from the estimates. Sales Wins are removed from the Sales Pipeline in the quarter in which the applicable contract for the business is executed

² Q1'23 weighted sales pipeline in the Servicer and Real Estate segment represents \$37 million to \$46 million in annual revenue on a stabilized basis based upon the Company's forecasted probability of closing

³ Sales Wins represent an estimate of the annualized revenue on a stabilized basis from the total Sales Wins in the applicable quarter. It is anticipated that stabilized revenue will be achieved after an initial ramp-up period for most Sales Wins. The period of time for the Company to begin to realize revenue on a stabilized basis, if at all, from a Sales Win can significantly vary based on a variety of conditions, including those related to the applicable client, the subject service, the applicable industry and the broader economy. Actual results could differ materially from applicable estimates. A Sales Win is included in the estimate of the applicable quarter in which the applicable contract for the business is executed. Estimates are not updated to reflect revenue recognized or changes to estimated revenue subsequent to the Sales Wins. Recognized revenue from Sales Wins is set forth in Growth in Revenue

⁴ Represents revenue recognized in the applicable guarter from FY2022 and FY2023 sales wins

MACROECONOMIC ENVIRONMENT

- Indicators that consumers are becoming increasingly financially stressed which could be precursors to a rise in mortgage delinquency rates:
 - High inflation eroding consumer purchasing power
 - Rapid rise in Fed Funds Rate driving mortgage interest rates to almost double from pandemic lows
 - Home affordability reduced to historic lows in Q4 2022
 - Average personal savings rate declined to 4.6% in February 2023, compared to 26.3% in March 2021¹
 - Auto loan delinquencies near record high levels
 - Federal student loan payments slated to resume
 - Outstanding credit card debt reached a record high in December 2022 and continued to climb at a robust pace in January 2023
 - Credit card delinquencies rose sharply through 2022; two large credit card lenders reported rising delinquencies in February 2023 compared to January

ORIGINATION SEGMENT

Business Unit Service Revenue

(\$ millions, except for market volume)

First Quarter Financial Performance

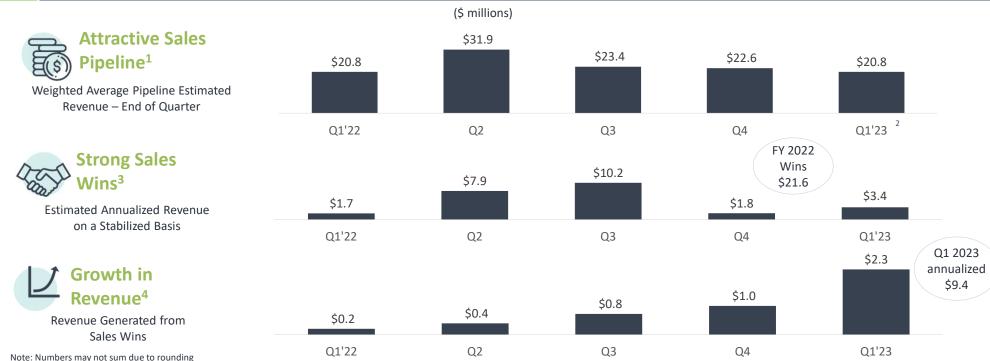

- Grew service revenue by 17% compared to Q4'22, representing the first quarter of sequential revenue growth in eight quarters
- Adjusted EBITDA was flat compared to Q4'22, reflecting first quarter revenue growth offset by the fourth quarter 2022 benefit from bonus reversals
- 31% year-over-year revenue decline was better than the 52% market-wide decline in origination volume for the same period¹
 - Reflects significantly better than market performance from Lenders One as we gain traction with our solutions that are designed to help our members save money
 - Performance was partially offset by our other Origination businesses which were largely in-line with the market

Adjusted operating (loss) income, pretax loss attributable to Altisource, adjusted pretax loss attributable to Altisource, EBITDA, Adjusted EBITDA, adjusted net loss attributable to Altisource, adjusted diluted loss per share, and net debt are non-GAAP measures used by management, existing shareholders, potential shareholders and other users of our financial information to measure Altisource's performance and do not purport to be alternatives to loss from operations, loss before income taxes and non-controlling interests, net loss attributable to Altisource, diluted loss per share and long-term debt, including current portion, as measures of Altisource's performance

- Adjusted operating (loss) income is calculated by removing intangible asset amortization expense, share-based compensation expense, loss on sale of business, cost of cost savings initiatives and other, debt amendment costs and unrealized gain on warrant liability from loss from operations
- Pretax loss attributable to Altisource is calculated by removing non-controlling interests from loss before income taxes and non-controlling interests
- Adjusted pretax loss attributable to Altisource is calculated by removing non-controlling interests, intangible asset amortization expense, share-based compensation expense, loss on sale of business, cost of cost savings initiatives and other, debt amendment costs and unrealized gain on warrant liability from loss before income taxes and noncontrolling interests
- EBITDA is calculated by removing the income tax provision, interest expense (net of interest income), depreciation and amortization and intangible asset amortization expense from GAAP net loss attributable to Altisource

- Adjusted EBITDA is calculated by removing the income tax provision, interest expense (net of interest income),
 depreciation and amortization, intangible asset amortization expense, share-based compensation expense, loss on sale
 of business, cost of cost savings initiatives and other, debt amendment costs and unrealized gain on warrant liability
 from GAAP net loss attributable to Altisource
- Adjusted net loss attributable to Altisource is calculated by removing intangible asset amortization expense (net of tax), share-based compensation expense (net of tax), loss on sale of business (net of tax), cost of cost savings initiatives and other (net of tax), debt amendment costs, net of tax, unrealized gain on warrant liability, net of tax and certain income tax related items from net loss attributable to Altisource
- Adjusted diluted loss per share is calculated by dividing net loss attributable to Altisource after removing intangible
 asset amortization expense (net of tax), share-based compensation expense (net of tax), loss on sale of business (net of
 tax), cost of cost savings initiatives and other (net of tax), debt amendment costs (net of tax), unrealized gain on
 warrant liability (net of tax) and certain income tax related items by the weighted average number of diluted shares
- Net debt is calculated as long-term debt, including current portion, minus cash and cash equivalents
- The reconciliations of non-GAAP measures to GAAP measures are shown on slides 20 to 27
