**ALTISOURCE ANNOUNCES FIRST QUARTER 2023 FINANCIAL RESULTS**

**Luxembourg, April 27, 2023** - Altisource Portfolio Solutions S.A. (“Altisource” or the “Company”) (NASDAQ: ASPS), a leading provider and marketplace for the real estate and mortgage industries, today reported financial results for the first quarter 2023.

“The first quarter represented a strong start for 2023 as we execute on our plan to recover from the impact of the COVID-19 pandemic. Our first quarter financial performance was better than plan with \$1.5 million of Adjusted EBITDA and gross profit margins of 23%, representing a \$5.6 million improvement in Adjusted EBITDA and an eight hundred basis point improvement in gross profit margins over the first quarter 2022. These results were primarily driven by revenue growth in pre-foreclosure solutions in our Servicer and Real Estate segment from the ongoing recovery of the default market, company-wide cost savings measures we took in 2022 and early 2023 and \$1.3 million in other income related to an India tax refund,” said Chairman and Chief Executive Officer William B. Shepro.

Mr. Shepro further commented, “We believe we are well positioned in 2023 to return to year-over-year revenue growth and generate positive Adjusted EBITDA. In our countercyclical Servicer and Real Estate business, we anticipate revenue and Adjusted EBITDA growth from market tailwinds, sales pipeline and wins, and scale. In our Origination business, we are maintaining a strong sales pipeline and making good progress converting sales wins to revenue. Our sales progress and efficiency initiatives should help return our Origination segment to revenue growth and improved Adjusted EBITDA for the year in what is forecasted to be a very difficult origination market. The stronger performance of our segments, combined with cost discipline in corporate and the steps we took to strengthen our balance sheet, should help us return to a growth Company and create substantial value for our stakeholders.”

**First Quarter 2023 Highlights<sup>(1)</sup>**

Corporate and Financial:

- Focused on growing the sale pipeline, improving operational efficiencies, reducing costs, and strengthening liquidity as the Company continued to seek to mitigate the impacts of the COVID-19 pandemic, governmental moratoriums and loss mitigation measures that affect the timing of the recovery of the market for default-related services
- Ended the first quarter 2023 with \$43.1 million of cash and cash equivalents
- Ended the first quarter 2023 with \$184.1 million of net debt<sup>(2)</sup>
- First quarter Adjusted earnings before interest, tax, depreciation and amortization (“EBITDA”)<sup>(2)</sup> of \$1.5 million
- Executed amendments to the Company’s senior secured term loans credit agreement and revolving credit facility (together, “Credit Agreements”) that, among other things, extended the maturity dates to April 2025, with an option to extend to April 2026, subject to certain terms and conditions<sup>(3)</sup>
- Generated \$20.5 million in net proceeds from the sale of Altisource common stock
- Used \$20 million of proceeds of the stock sale to repay a portion of the senior secured term loans

Business and Industry:

- The Servicer and Real Estate segment continues to benefit from the restart of the default market and efficiency initiatives

- Service revenue of \$29.8 million, a 10% increase compared to the first quarter of 2022
- Gross profit of \$12.2 million, a 39% increase compared to the first quarter of 2022
- Gross profit margin of 41% compared to 32% in the first quarter of 2022
- Income from operations of \$9.9 million, a 73% increase compared to the first quarter of 2022
- Adjusted EBITDA<sup>(2)</sup> of \$11.1 million, a 63% increase compared to the first quarter of 2022
- Adjusted EBITDA margin<sup>(2)</sup> of 37% compared to 25% in the first quarter of 2022
- Industrywide foreclosure initiations were 10% lower for the first quarter of 2023, compared to the same period in 2022 (and 28% lower than the same pre-COVID-19 period in 2019)<sup>(4)</sup>
- Industrywide foreclosure sales were 45% higher for the first quarter of 2023, compared to the same period in 2022 (although still 44% lower than the same pre-COVID-19 period in 2019)<sup>(4)</sup>
- The Servicer and Real Estate segment and Origination segment had strong sales wins which we estimate represent \$14.4 million and \$3.4 million, respectively, of annualized revenue on a stabilized basis
- The weighted sales pipeline in the Servicer and Real Estate segment represents \$37 million to \$46 million in estimated annual revenue on a stabilized basis based upon our forecasted probability of closing
- The weighted sales pipeline in the Origination segment represents \$18 million to \$23 million in estimated annual revenue on a stabilized basis based upon our forecasted probability of closing
- Service revenue in the Origination segment of \$7.3 million grew by 16.5% compared to the fourth quarter of 2022, representing the first quarter of sequential revenue growth in this segment in eight quarters

### First Quarter 2023 Financial Results

- Service revenue of \$37.1 million
- Loss before income taxes and non-controlling interests of \$(11.3) million
- Net loss attributable to Altisource of \$(12.9) million
- Adjusted EBITDA<sup>(2)</sup> of \$1.5 million

**ALTISOURCE PORTFOLIO SOLUTIONS S.A.**  
**NON-GAAP MEASURES**  
*(in thousands, except per share data)*  
**(unaudited)**

Adjusted operating income (loss), pretax loss attributable to Altisource, adjusted pretax loss attributable to Altisource, adjusted EBITDA, adjusted net loss attributable to Altisource, adjusted diluted loss per share, net cash used in operating activities less additions to premises and equipment and net debt, which are presented elsewhere in this earnings release, are non-GAAP measures used by management, existing shareholders, potential shareholders and other users of our financial information to measure Altisource's performance and do not purport to be alternatives to loss from operations, loss before income taxes and non-controlling interests, net loss attributable to Altisource, diluted loss per share, net cash used in operating activities and long-term debt, including current portion, as measures of Altisource's performance. We believe these measures are useful to management, existing shareholders, potential shareholders and other users of our financial information in evaluating operating profitability and cash flow generation more on the basis of continuing cost and cash flows as they exclude amortization expense related to acquisitions that occurred in prior periods and non-cash share-based compensation, as well as the effect of more significant non-operational items from earnings, cash flows from operating activities and long-term debt net of cash on-hand. We believe these measures are also useful in evaluating the effectiveness of our operations and underlying business trends in a manner that is consistent with management's evaluation of business performance. Furthermore, we believe the exclusion of more significant non-operational items enables comparability to prior period performance and trend analysis. Specifically, management uses adjusted net loss attributable to Altisource to measure the on-going after tax performance of the Company because the measure adjusts for the after tax impact of more significant non-recurring items, amortization expense relating to prior acquisitions (some of which fluctuates with revenue from certain customers and some of which is amortized on a straight-line basis) and non-cash share-based compensation expense which can fluctuate based on vesting schedules, grant date timing and the value attributable to awards. We believe adjusted net loss attributable to Altisource is useful to existing shareholders, potential shareholders and other users of our financial information because it provides an after-tax measure of Altisource's on-going performance that enables these users to perform trend analysis using comparable data. Management uses adjusted diluted loss per share to further evaluate adjusted net loss attributable to Altisource while taking into account changes in the number of diluted shares over the comparable periods. We believe adjusted diluted loss per share is useful to existing shareholders, potential shareholders and other users of our financial information because it also enables these users to evaluate adjusted net loss attributable to Altisource on a per share basis. Management uses Adjusted EBITDA to measure the Company's overall performance (with the adjustments discussed earlier with regard to adjusted net loss attributable to Altisource) without regard to its capitalization (debt vs. equity) or its income taxes and to perform trend analysis of the Company's performance over time. Our effective income tax rate can vary based on the jurisdictional mix of our income. Additionally, as the Company's capital expenditures have significantly declined over time, it provides a measure for management to evaluate the Company's performance without regard to prior capital expenditures. Management also uses Adjusted EBITDA as one of the measures in determining bonus compensation for certain employees. We believe Adjusted EBITDA is useful to existing shareholders, potential shareholders and other users of our financial information for the same reasons that management finds the measure useful. Management uses net debt in evaluating the amount of debt the Company has that is in excess of cash and cash equivalents. We believe net debt is useful to existing shareholders, potential shareholders and other users of our financial information for the same reasons management finds the measure useful.

Altisource operates in several countries, including Luxembourg, India, the United States and Uruguay. The Company has differing effective tax rates in each country and these rates may change from year to year. In determining the tax effects related to the adjustments in calculating adjusted net loss attributable to Altisource and adjusted diluted loss per share, we use the tax rate in the country in which the adjustment applies or, if the adjustment is recognized in more than one country, we separate the adjustment by country, apply the relevant tax rate for each country to the applicable adjustment, and then sum the result to arrive at the total adjustment, net of tax. In 2019, the Company recognized a full valuation allowance on its net deferred tax assets in Luxembourg. Accordingly, for 2023 and 2022, the Company has an effective tax rate of close to 0% in Luxembourg.

It is management's intent to provide non-GAAP financial information to enhance the understanding of Altisource's GAAP financial information, and it should be considered by the reader in addition to, but not instead of, the financial statements prepared in accordance with GAAP. Each non-GAAP financial measure is presented along with the corresponding GAAP measure so as not to imply that more emphasis should be placed on the non-GAAP measure. The non-GAAP financial information presented may be determined or calculated differently by other companies. The non-GAAP financial information should not be unduly relied upon.

Adjusted operating income (loss) is calculated by removing intangible asset amortization expense, share-based compensation expense, cost of cost savings initiatives and other, debt amendment costs and unrealized gain on warrant liability from loss from operations. Pretax loss attributable to Altisource is calculated by removing non-controlling interests from loss before income taxes and non-controlling interests. interests, intangible asset amortization expense, share-based compensation expense, cost of cost savings initiatives and other, debt amendment costs and unrealized gain on warrant liability from loss before income taxes and non-controlling interests. Adjusted EBITDA is calculated by removing the income tax provision, interest expense (net of interest income), depreciation and amortization, share-based compensation expense, cost of cost savings initiatives and other, debt amendment costs and unrealized gain on warrant liability from net loss attributable to Altisource. Adjusted net loss attributable to Altisource is calculated by removing intangible asset amortization expense (net of tax), share-based compensation expense (net of tax), cost of cost savings initiatives and other (net of tax), debt amendment costs, unrealized gain on warrant liability and certain income tax related items from net loss attributable to Altisource. Adjusted diluted loss per share is calculated by dividing net loss attributable to Altisource after removing intangible asset amortization expense (net of tax), share-based compensation expense (net of tax), cost of cost savings initiatives and other (net of tax), debt amendment costs, unrealized gain on warrant liability and certain income tax related items by the weighted average number of diluted shares. Net cash used in operating activities less additions to premises and equipment is calculated by removing additions to premises and equipment from net cash used in operating activities. Net debt is calculated as long-term debt, including current portion, minus cash and cash equivalents.
